# ONE FOR ALL

**For the first time** one congress combines all areas of metal coatings and provides a forum for the metal coatings community to discuss innovative solutions and approaches to overcome the technical and social challenges faced by the industry.

The European Coatings Metal Congress is the industry meeting place for the metal coatings industry and provides the ideal opportunity for disseminating new technology, collaboration and networking.

**Meet the experts, speak with peers,  
find new partners – become a member of  
this new community.**

## **YOUR EXPERTISE IS IN DEMAND**

**Speakers from innovative companies and research institutes are invited to submit abstracts targeting areas such as (but not limited to)**

- » Radiation curing, waterborne, high solids, powder
- » Pre-treatment
- » High throughput testing
- » Laboratory testing vs. natural corrosion
- » VOC and emission reduction in production and application
- » Substrate knowledge on ferrous and non-ferrous metals
- » High performance Cr-VI free coatings
- » Can and coil coatings, corrosion protection, appliances
- » Challenges with multi-material assemblies
- » Bio-based raw materials

**to highlight the latest research results and technical advances within the metal coatings formulation, production, application and testing sector.**
