Woodcoatings Congress

is calling for papers:
Addressing the challenges of modern wood coatings
Calling for your ideas

PRA’s 12th International Woodcoatings Congress is calling for your bright ideas. Following the very successful sell-out conference held in 2018, this conference again provides you a unique opportunity for personal interaction with like-minded professionals - disseminating new technology, collaboration and networking.

Submit your abstract online before 10 April 2020 at:
www.european-coatings.com/wood-coatings
Your expertise is in demand

Companies and research institutes are invited to submit abstracts describing new scientific and technical developments in formulating and testing coatings for interior or exterior wood applications.

A variety of topics is welcome

- Issues of sustainability and environmental protection
- Fundamental research to practical end-use applications
- Technology, performance, measurement & instrumentation

You may find further topic suggestions online.

Best Paper Award

The most outstanding technical paper will be honoured with the famous Holbrow Medal by the Oil & Colour Chemists’ Association (OCCA).
The Congress is a collaboration between:

Woodcoatings
Congress

We can’t wait to hear from you!
